

The SunScribe logo features the word "SunScribe" in a bold, sans-serif font. The "S" in "Sun" is black, while the "S" in "Scribe" is orange. The "i" in "Scribe" is a smaller, lowercase black font.

SOLAR SUBSCRIPTION PACKAGES

FOR INSTALLERS!

Unlocking Solar for Every South African Home.

The biggest hurdle in your sales process is now your greatest competitive advantage. Sunscribe provides installers with a full service subscription offering that makes solar accessible to the masses without compromising on hardware quality. We understand that your reputation is built on reliability, which is why our model includes full technical support – protecting both the homeowner’s peace of mind and your professional standing. Stop letting high upfront costs kill your deals. With Sunscribe, you can offer a world-class energy service that fits the family budget, ensuring your business stays busy and your installation teams stay on-site.

A vertical grey bar on the right side of the page contains the text "BROUGHT TO YOU BY WORLD OF SUN AND WIND POWER" in a bold, uppercase, sans-serif font. Above the text are two overlapping orange squares. Below the text is a thin teal vertical line with a small teal square at the top.

Empowering the Solar Evolution

Sunscribe is a specialized solar-as-a-service provider headquartered in Rosebank, Johannesburg. We do not just facilitate hardware installations; we provide the financial and operational infrastructure that allows the solar industry to scale. By offering comprehensive subscription models, we enable homeowners to bypass the "price shock" of solar energy while providing installers with the tools to close more deals and grow their businesses.

1. Financial Accessibility

We believe that energy security shouldn't depend on available liquid capital. Our model is built on zero-upfront-cost accessibility, allowing homeowners to redirect their existing utility spend into a fixed-term energy subscription.

2. Risk Mitigation & Management

Ownership of solar hardware often comes with the burden of maintenance, insurance, and technical obsolescence. Sunscribe assumes all ownership risks. We handle the insurance, the long-term maintenance, and the technical health of every system in our network.

3. Commitment to Quality

Every Sunscribe system is a commitment to longevity. We only utilize Tier-1 hardware and high-performance lithium storage, ensuring that our subscribers receive a service that is as reliable as it is affordable.

4. Strategic Installer Partnerships

Sunscribe acts as a high-performance sales engine, providing installers with frictionless pre-qualification and pre-configured tiers to unlock the flexible payment market. By handling all billing, insurance, and long-term service, we empower our partners to focus solely on technical excellence and professional installations.

Sunscribe - Solar Subscription Made Easier

Solar Finance Packages

Bridge the gap between high upfront costs and energy independence.

Sun 1 | Essential Startup

3kW Solar System

The ideal entry-point for apartments or small homes looking to secure essential lighting, high-speed Wi-Fi, and refrigeration during load shedding.

- > [JA Solar Panels 610W x4](#)
- > [Deye 5kW Inverter x1](#)
- > [Dyness 5.1kWh Lithium Battery x1](#)

Includes:

- Panels
- Installation
- Mounting
- Balance of System
- Kit (Battery + Inverter)

R1100 P/M (Incl. VAT)

Sun 2 | Enhanced Backup

3kW Solar System

Features an expanded solar array to ensure faster battery recharge cycles and more consistent daytime coverage for a home office.

- > [JA Solar Panels 610W x6](#)

Terms

Fixed Service Term

All standard solar subscriptions are based on a fixed term of 60 months.

Full Service Coverage

The monthly fee includes all system maintenance, repairs, and 24/7 performance monitoring.

Zero Initial Capital Outlay

There are no upfront fees or deposits required to begin the service.

Fixed Service Term

Should the subscription be cancelled within the first 6 months, the full balance of the 60-month term becomes due immediately.
